

PERELADA

VINOS & CAVAS

When Miguel Mateu acquired the Perelada Castle in 1923, one of his dreams was to recover the winemaking tradition dating back to the XIVth century, when the Carmelite monks of the monastery attached to the castle started producing a wine of renown in the area.

Thus was born the Castillo Perelada winery in the heart of the Empordà, an area of privileged geo-climatic conditions due to the proximity of the Mediterranean Sea and the extraordinary diversity of its soils. Castillo Perelada owns 131 hectares of vineyards, and is at present a winery of reference, prestige and charisma in our country.

Next to the wine cellar stands the Convent del Carme which houses Miguel Mateu's valuable art collection made up by striking glass pieces, the magnificent library, and the wine museum, with tools and utensils that have witnessed the evolution of winemaking through the ages.
